To the Honourable the President and Members of the Legislative Council in this present Parliament assembled -

The humble Petition of the undersigned residents of South Australia respectfully sheweth:- That

- **research involving human embryos and human cloning are profound rejections of the gift of life**; and
- **the State Government must investigate and prefer the latest developments in ethical stem cell research that does not involve human embryos;**

Your petitioners therefore pray that your Honourable House will

reject proposals to:

(a) reduce prohibitions on human cloning; and

(b) modify regulation of research involving human embryos;

as proposed by the Honourable Minister John Hill in the *Statutes Amendment (Prohibition of Human Cloning for Reproduction and Regulation of Research Involving Human Embryos) Bill*

And your petitioners, as in duty bound, will ever pray.
